Summary

I am a full-stack web developer mainly focused on MERN Stack.

I have a background in Computer Engineering but I fell in love with web development and software.

I have a strong background in HTML/CSS/Javascript.

I am using Cloud Platforms such as Heroku, and MongoDB Atlas for deploying modern web applications and back4app for mobile applications.

For the UI / UX design, I use figma as my wireframing tool as well as for the illustrations and graphic contents needed.

Most of my time I just code and design aesthetic websites and applications.
When I'm away from the keyboard, I go to places that are silent and peaceful to read books, or learn more about web development, software, computer science and startup technology.

I also love to go to places where I can set my mind and be ready to do work, code and design again.

Creativity and critical thinking isn't something that we learn inside school, and that is my main skill besides having the knowledge to build web sites and applications from scratch to production.

Experience

Full-stack Web Developer
Freelance
Feb 2016 - Dec 2020 (4 years 11 months)
I have been building local web apps like POS, Human resource, and Product Management Systems.

Education

Jose Rizal Memorial State University
Bachelor's degree, Computer Engineering
2017 - 2022
Adminstrator's list, 2nd year (2018-2019)

Licenses & Certifications

Neural Networks and Deep Learning - DeepLearning.AI

Programming for Everybody (Getting Started with Python) - Coursera

Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning - DeepLearning.AI

Convolutional Neural Networks in TensorFlow - DeepLearning.AI

Crash Course on Python - Coursera | Google

Skills

MongoDB • React.js • Node.js • Web Development • Analytical Skills • Web Design • Wireframing • MySQL • REST APIs • Bootstrap

Honors & Awards

1st Runner Up - Regional ICPeP convention / Programming - Regional IX ICPep
Sep 2018
Regional ICPeP convention for Region 9, Zamboanga Del Norte

2nd runner up - Regional ICPeP convention / Programming - Region IX ICPeP
Sep 2017
Regional ICPeP convention / Programming contest
