Summary

We live in a world where information is very accessible.
The only question left is whether we consume it or not.
All my life I have understood things through self-learning and experience.
The more we dig deep into a certain subject, the more we understand how it works.
And if we know how something works, we can tame it and
use it to create something meaningful.

Skills:
- Proficient in HTML/CSS/Javascript

Stack:
- ReactJS
- MongoDB / MySQL
- ExpressJS
- Node

https://0xdeviant.github.io/

Experience

Full-stack Web Developer
Freelance
